# Competitive Environment Selective Retail & Semi Professional Brands

## Competitive Environment

# Mass Market & Middle Market

### Advantages of Mass Market & Middle Market Brands

- Good representativeness in points of sales (it is sold everywhere)
- Broad coverage in International Press and massive TV advertisement
- Brand awareness among target audience is very high
- Affordable/low price
- Very strong trade-marketing support in points of sales (promotions, cross promotions, sales, points of sales branding etc.)

### Disadvantages of Mass Market & Middle Market Brands

- Conventional type of formulations (ingredients)
- Limited assortment does not respond to consumers' needs
- Low quality and effectiveness
- "Already tried before" perception by consumers

## Competitive Environment

# Selective Retail & Semi Professional Brands

### Advantages of Selective Retail & Semi Professional Brands

- Very strong emotional concept
- Luxury packaging
- Seasonal Collection (images, new products etc.)
- Broad coverage in International Press
- Good representativeness in points of sales
- Brand awareness among target audience is very high
- Wide range of products
- High effectiveness of all products

### Disadvantages of Selective Retail & Semi Professional Brands

- Very high prices for products
- Conventional type of formulations (ingredients)
- Quality does not always correspond to price

Competitive Environment  
**Strategic Positioning  
of Reistill Hair Care**

**Reistill Hair Care is born on the edge  
of three big trends on beauty market:  
Fashion&Beauty / Health&Safety /

## NEW PRODUCTS

Reistill<sup>®</sup>  
MILANO

### Thermo-protector Extreme Protection Leave-In Spray

For all hair types  
150 ml

Just like it takes the right foundation to create a flawless make-up, using the right hair product will allow you to create great hairstyles without damaging your hair.

If you use hairdryer or straightening irons every day, your hair's structure can be damaged and you end up with dull brittle hair that's prone to breakage and split ends. As natural moisture and nutrients are not locked within adequately, not only hair does become dryer, rougher, more tangled, hair color also starts to fade.

This year Reistill Laboratory presents a perfect thermal protector for all hot tools' lovers. Enriched with thermoactivated siliconized Sesame Proteins, it coats your hair's strand creating a heat barrier to protect your hair from heat damage. Spray it on wet hair, do not rinse off and style as desired. We guarantee you healthier and shinier locks!

#### Key ingredients:

**Sesame proteins** – rejuvenate the damaged hair  
**Polymer chains** – activated by heat, form protective film that wraps the hair shaft and provide a barrier effect that:

- Protects hair from drying
- Prevents split ends
- Softens and detangles

### Blonde Creator Anti-Yellow & Brightening Shampoo and Conditioner

For all hair types  
250 ml

For those who love bleached hair or have naturally light blonde hair Reistill Laboratory presents a perfect set for your haircare routine to help you maintain your hair color vibrant cool and salon fresh – Blonde Creator Shampoo and Conditioner.

These two perfectly neutralize yellow undertone and dull brassy color after the first wash, leaving your hair re-freshed and naturally shiny.

Adding a purple shampoo just once a week instead of your everyday shampoo is all you need for hair that is refreshed with vibrancy and blonde that is back to bold. Use an anti-yellow conditioner after using the purple shampoo to lock the color in. They also work well on grey or white hair.

#### Key ingredients:

- Rice Protein** – nourish and softens the hair
- Pro-Vitamin B5** – gives body and vitality to the hair
- Organic Aloe Vera** – provides intense hydration
